Durable Color

Ten exterior colors means you can coordinate with exterior trim siding and stucco. Our premium colors bring out the clean lines and angles of the window frame. Each color suits a neutral look, whether in light and dark variety, and can blend in with the surrounding wall color and create a smooth, contemporary look in your home.

Our new Black Capstock exterior finish with matching interior is only available on Trinsic Series. All painted exterior finishes have a white interior.

New Capstock Finish

Capstock is an acrylic layer that covers – or “caps” – a vinyl profile. The acrylic layer is extruded together with the underlying vinyl profile, ensuring maximum bonding and superior durability.

Vinyl Finishes are available on Tuscany® Series | V400, Trinsic™ Series | V300 windows and doors and Style Line® Series | V250 windows.

For more details, visit milgard.com.

Colors shown are approximate. Visit your local Milgard Certified Dealer to see accurate color samples.

*This new finish option is only available on Trinsic Series.

Vinyl Finishes

AVAILABLE ON TUSCANY® SERIES | V400, TRINSIC™ SERIES | V300 AND STYLE LINE® SERIES | V250

Painted Finishes worthy of the Milgard Name

Milgard products are engineered to perform to a higher standard. We developed a two-coat formulation that outperforms the competition.

Other windows may reflect damaging UV rays, which over time can dull, warp and crack the paint. Milgard Painted Finishes, on the other hand, are translucent. New coating technology allows UV rays to pass through Milgard paint so that the vinyl reflects the UV rays. This preserves the exterior color and finish.

Color screens to match your windows and doors

The screens that come with Milgard windows and patio doors are made of durable aluminum and most* are color-matched exactly to the frame color.

*Bronze screens are a complementary color, Silver screens are gray.

Attractive Grids

Milgard has paid attention to detail by matching the grids to the frame. Whether you choose flat or sculpted grids between the glass or Simulated Divided Lites, the grids are color-matched to the frame on the exterior and are white on the interior.

Grid Colors

Frame Color	Sand	Fog	Ivory	Silver	Classic Brown	Espresso	Bronze	Black
Grids Between Glass	Sand	NA*	Sand	Silver	Classic Brown	Espresso	Bronze	Black
Simulated Divided Lite (SDL)	Sand	Fog	Ivory	Silver	Classic Brown	Espresso	Bronze	Black

*Fog is only available on SDL grids. Fog Grids Between the Glass styles are not available.
