 ✗ Wrought Iron (1W)

Better and bigger.

Look at it. Touch it. Knock on it. A Thermo-Tru fiberglass door looks and feels just like real wood. But it won't warp or rot like a wood door, making it a great choice for your next big project.

Pulse. Shown in 3'6" x 8'0" size. See chart on back for full offering.

Lite Frames  
 Available with flat profile for modern appeal or scrolled profile for vintage style.

Achieve a seamless look with the Advanta lite frame, an innovative solution for the unsightly appearance of screw plugs.\*\*
