Knotty Alder Door Collections

1-3/8" Thickness

The double hip raised panel profile offers a distinct 3/4" panel thickness that illuminates depth and design. Plank panel doors feature a v-groove, which offers the traditional beauty of tongue and groove construction without joint separation, swelling or rattling and create a flat panel, mission look. Both panel designs

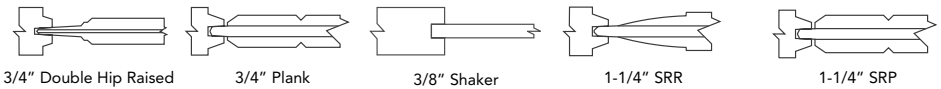

come standard with 3/4" Split Resistant Panels and Engineered stiles for greater stability. Shaker doors offer sharp, crisp lines that meet many designs trends and decors. We also offer the premium 1-1/4" thick panels in both raised "SRR" and plank "SRP" to compliment our 1-3/8" knotty alder offering.

SPECIFICATIONS

Height: 6'8", 8'0" | Thickness: 1-3/8"
Width: 1/6, 2/0, 2/4, 2/6, 2/8, 3/0

All 1-3/8" designs include Express Ship stock of corresponding bi-folds
