ING

THE PIECE THAT BRINGS IT ALL TOGETHER.

Moulding completes the look of any space by adding depth, texture and contrast. Not only is moulding aesthetically pleasing, it can also add value to your home and provides an extra layer of protection for your walls.

Woodgrain Distribution offers a wide selection of quality moulding – from ceiling to floor – in a variety of species, profiles, sizes, and applications. Whether you're looking for simple base moulding, beautiful crown moulding or combine pieces to create a unique look, we have what you seek.

Our attention to quality and detail can be seen in the end product. To achieve a seamless look, our moulding is cut to match our drawings exactly. This ensures that any two pieces of moulding from the same profile line up every time.

MOULDING SIZE CHART

EXTERIOR DING

SUPERIOR EXTERIOR PROTECTION.

The exposed trim work is a small, yet significant detail to the overall craftsmanship of a home. Exterior moulding is a functional component to sealing and protecting the home, while also adding character and style.

Woodgrain Distribution offers a variety of exterior moulding profiles in Polyvinyl Chloride (PVC). PVC is a plastic product manufactured for exterior applications due to its ability to endure all types of weather conditions.

Our PVC moulding installs like traditional wood moulding and is a rot-resistant, durable solution for moisture. With UV protection as well as the ability to paint, PVC is an ideal solution for the home.

A photograph of a dining room. In the foreground, a round wooden table is partially visible with a silver salt and pepper shaker set. Two white upholstered chairs are tucked under the table. A large, modern pendant light with a dark frame and multiple rectangular panels hangs from the ceiling. A large window with a dark wood frame looks out onto a landscape with a lake, trees, and a house in the distance. Beige curtains are on either side of the window. The word "ELEG" is overlaid in large, grey, sans-serif font across the center of the image.

DECRA BLOC

MOLD[®] & KSHOP[®]

GORGEOUS DESIGN IS ALL IN THE DETAILS.

DecraMold[®] is that added touch that makes a space extraordinary. Made from solid pine, DecraMold[®] finishes beautifully with paint, stain or varnish to match the style of any room. Since DecraMold[®] is available in a variety of sizes and installs just like traditional moulding, its uses can be as versatile as your space allows.

BlockShop[®], a "No-Miter System[®]", eliminates the need for bothersome miter cuts while adding interest to corners. BlockShop[®] can be paired with DecraMold[®] and traditional moulding for easy installation of base, casing, chair rail, crown, and more.
